

NSF Workshop on Molecular Communication/

Biological Communications Technology

Pre-workshop Session Chair Meeting

2/19 (Tue) 19:30-21:00, Hilton Arlington (Room Renoir)

- Workshop goal
 - Identify grand research challenges
 - ◇ Produce a list of research questions
 - ◇ No solutions/approaches need to be identified, (of course good to discuss)
 - Create summary slides that illustrate identified grand research challenges
 - ◇ Present at the end of Day 2
 - ◇ Sample from a past NSF workshop
 - Final report (within 1.5-2 months)
 - ◇ Suggest NSF what programs to create and what actions to take
 - ◇ Sample from a past NSF workshop
 - ◇ Will talk more at the post-workshop session chair meeting on Day2
- Important events (also see the program)
 - Day 1 morning: presentations by session chairs (30 min including time to switch speakers)
 - Day 1 afternoon: breakout session organization (how?)
 - Day 1 evening: giving a summary (who does?)
 - Day 2 lunch: session chairs meet (quick update on the discussions)
 - Day 2 afternoon: final presentation on grand research challenges (who does?)
 - Day 2 evening: meet to discuss workshop report
- Audio/visual arrangement in each room
 - Either a projector or an LCD monitor available
 - 2 laser pointers/pens/notepads available
 - Need any help during breakout sessions, ask a student assistant.
- 10~12 NSF directors moving between sessions
